

## **2.20 Cell Phones and Pagers**

### **Purpose**

The Richland Community Library strives to provide services and materials to the public in an environment conducive to their use. Because use of cell phones in public area is often disturbing to library users, the Board has adopted this policy.

### **Scope**

This policy applies to all public areas of the library building, except those designated for cell phones.

### **General Guidelines**

Library visitors are to silence the ringer or other audible signals of their cell phones while in the library.

People making calls on a cell phone must use the vestibule (the area between the inner and outer doors), or go outside to continue their conversations.

Library staff may require that people engaged in cell phone conversations move to designated areas.

Library staff will post signs notifying the public of this policy and identifying designated cell phone areas

Patrons who do not comply with this policy may be asked to leave the Library.
