

2.96 Notary Public Service Policy

The Richland Community Library may provide notary service to the public, provided that a member of staff is a certified Notary Public. The library does not require any members of staff to hold the certification of notary or force any staff with to act as a public notary. If the library does not have a Notary on staff or available at the time of the requested service, the library may assist in locating a Notary Public within close proximity.

Notary services are free and open to the public. You do not have to be a member of the library to obtain notary services. Notary services are only provided during open library hours.

No appointment is needed for Notary services. It is recommended that interested parties call ahead to verify the availability of a Notary Public.

Notaries adhere to the Michigan Notary Public Act 238 of 2003.
